

Privacy Policy

General Information

Welcome to the website of Palladium Labs.

Based on the data protection regulations every person is entitled to the protection of his or her privacy and against misuse of personal data. We take the protection of your personal data very seriously. We treat your personal data confidentiality, and in accordance with the legal data protection regulations as well as this privacy policy.

In collaboration with our hosting provider, we make every effort to protect the databases against unauthorized access, data loss, data misuse or forgery. We would like to point out that data transmission on the internet can have security gaps. A complete protection of data against access by third parties is impossible.

By using this website, which can be done without registration, you agree to the collection, processing and use of data in accordance with this privacy policy. Data such as pages visited or the name of an accessed file, date and time are stored on the server for statistical purposes without being directly related to your person. Personal data, in particular your name, address or e-mail address are collected on a voluntary basis as far as possible. The data will not be passed on to third parties without your consent.

Processing of Personal Data

Personal data is all information that relates to an identified or identifiable person. A data subject is a person about whom personal data is processed. Processing includes any handling of personal data, irrespective of the means and procedures applied, in particular the retention, disclosure, acquisition, deletion, storage, modification, destruction and use of personal data.

Cookie Policy

This website uses cookies. These are small text files, which make it possible to store specific information relating to the user on the user's terminal device while using the website. Cookies make it possible to determine the frequency of use and the number of users of different pages, to analyze user behavior and to make our offer more customer friendly. Cookies remain stored at the end of a browser session and can be called up again when the site is revisited. If you don't wish this to happen, you can adapt the settings of your internet browser to block or delete cookies. Please note that deleting or blocking cookies might prevent you from using all functions and features of this website. To find out more on how to manage and delete cookies, visit allaboutcookies.org.

A general objection to the use of cookies used for online marketing purposes can be declared for a large number of services, especially in the case of tracking, via the US site aboutads.info or the EU site youronlinechoices.com.

SSL/TLS Encryption

This website uses SSL/TLS encryption for security reasons and to protect the transmission of confidential content, such as requests you send to us. You can recognize an encrypted connection based on the lock symbol displayed by your browser next to the URL and the fact that the URL starts with "https://" instead of "http://".

If SSL/TLS encryption is activated, the data you transmit to us is better protected against being read by third parties.

Server Log Files

The provider of this website automatically collects and stores the following data, which your browser automatically transmits to us, in log files:

- Browser type and browser version
- Operating system used
- Referrer URL
- Host name of the accessing computer
- Time of the server request

This data cannot be assigned to specific persons and is not consolidated with other data sources. We reserve the right to subsequently check this data, if we become aware of concrete indications of illegal use.

Links to Other Websites

Please note that this privacy policy does not apply to websites provided by third parties, which you might visit based on links provided by us on our pages. Please refer to the data privacy policies provided directly on those pages to find out more about how they protect your data.

Notice Concerning Data Transfers to the USA

This website may use Google Maps for embedding maps and Google Invisible reCAPTCHA for protection against bots and spam, YouTube to embed videos and Google Analytics to analyze user behavior. These services of the American Google LLC use cookies, among other things, and as a result, data is transferred to Google in the USA, whereby we assume that in this context no personal tracking takes place solely by using our website.

Google is committed to ensuring an appropriate level of data protection in accordance with the American-European and the American-Swiss Privacy Shield. Further information can be found in the Google Privacy Policy.

Newsletter

If you would like to receive the newsletter offered on this website, we require an e-mail address from you as well as other information that allows us to verify that you are the owner of the provided e-mail address and that you agree to receive the newsletter. Further data will not be collected. We use this data exclusively for sending the requested information.

You can revoke your consent to the storage of the data, the e-mail address and its use for sending the newsletter at any time, for example by clicking on the "unsubscribe" link in the newsletter.

Google Analytics

This website uses Google Analytics, a web analytics service provided by Google Inc, 1600 Amphitheatre Parkway, Mountain View, CA 94043, USA. You can deactivate Google Analytics with a browser plug-in, which can be found [here](#).

Google Analytics uses cookies. These are small text files, which make it possible to store specific information relating to the user on the user's terminal device while using the website. These allow Google Analytics to analyze the use of our website. The information collected based on cookies about the use of our website (including your IP address) is usually transferred to a Google server in the USA and stored there. We would like to point out that on this website Google Analytics has been extended by the code "gat_anonymizelp();" in order to ensure an anonymized recording of IP addresses (so-called IP-Masking). If anonymization is active, Google will shorten IP addresses within member states of the European Union or other states that belong to the European Economic Area. This prevents drawing conclusions about your identity. Only in exceptional cases the full IP address is first transferred to a Google server in the USA and shortened there. Google observes the data protection regulations of the "Privacy Shield" agreement and is registered with the "Privacy Shield program of the US Department of Commerce.

Google uses the collected information to evaluate the use of our website, to write reports for us in this regard and to provide other related services to us. You can learn more at support.google.com/analytics.

Changes To This Data Privacy Policy

We may change this privacy policy at any time without notice. The version currently published on our website applies.
